We have 30 years' experience in the raised floor field and have won fair praise in this market. Therefore, our job sites can be found all over Taiwan. In addition, we also have many years' experience in exporting raised floor system overseas and compliments are given for the quality and our service.

OA500 series

Steel raised access floor system

Steel Solid Panel

- Designed specifically for office flooring, these panels offer a comfortable "solid" feel.
- Standard floor finished height range from 50mm to 200mm (Above 200mm also available).
- pre-cut panels (wiring panel) for several functions.

Wiring panel with various material cover
